

LaNier Turner-Frazier

LaNier Turner-Frazier is a rising leader and expert in women's empowerment. Branded as "The Petite Powerhouse," LaNier specializes in providing impactful coaching and training programs that help women maximize their potential in life and in business without compromising their standards or giving away their feminine power.

She is the Founder/CEO of EmpowHERment Enterprises™ and EmpowHERment University™. LaNier is also the author of *The EmpowHERed Woman's Guidebook* and the creator of The EmpowHERed Entrepreneur Success System™ that teaches women entrepreneurs how to avoid burnout and build their small business simply, efficiently, and systematically.

LaNier has personally experienced some of the challenges and frustrations of running a business from home around her family and active lifestyle. It was her desire to make her business fun, simple to run, and consistently profitable that led her to fine-tune and radically transform the way she ran her business.

LaNier banished the overwhelm by tapping into the power of teamwork and time mastery systems, which helped her to blast into a whole new level of business success. She is now enjoying a purposeful, productive, and profitable life teaching other women entrepreneurs how they can do the same!

When LaNier is not empowering women and teen girls, you can usually find her at a Zumba fitness class, shopping for clothes and shoes that make her look and feel like a million-dollar businesswoman, or simply relaxing at home reading a good book. She loves spending time with her three fabulous children (ages 20, 10 and 9) and going on romantic getaways with her husband/business partner.
